

CERAMIC HOT PLATE - ANALOGIC

// CABINET FEATURES:

- 1020 carbon steel;
- Corrosion-resistant;
- Epoxy powder textured coated steel;
- Rubber feet;
- Safety fuse holder;
- Stainless steel support between cabinet and plate.

// INCLUDED ACCESSORIES:

- Safety fuse.

// TECHNICAL DATA:

TEMPERATURE RANGE	50°C up to 400°C (other temperatures, under analysis)
PLATE MATERIAL	Ceramic
TEMPERATURE CONTROL	Eletronic adjustment 50°C in 50°C
PRE SET ON/OFF	Luminous indication
POWER CABLE	3 pins - Brazilian standard (NBR14136)
HEATING SYSTEM	Shielded resistance - easy to replace
POWER SUPPLY	110V or 220V (to be defined)

// MODEL DETAILS:

MODEL	TOP PLATE SIZE	TOTAL WEIGHT	POWER
SSCAc	16.5x16.5 cm	10 kg	600 W
SSCAc	30x20 cm	12 kg	1000 W

// OPTIONAL:

- Controlling system by microprocessor.

Notice: Any product presented can be produced according to customer's needs. All models come with English language instruction manual. 1-year warranty against manufacturing defects.
